

Update instructions for the online update to version 3.62

Important: System requirements: Version 3.61. Updates for Version 3.60/3.61 are available under the update path /updates/c-mor-plus-v3.60.

Please use the update function of the C-MOR:

<http://<C-MOR-Address>/en/update.pml>:

Update steps:

1. Disable all cameras in the System Administration page
2. Under server name use "update.c-mor-video.com" and under path: /updates/c-mor-plus-v3.62/

C-MOR Updater

**Please de-activate all cameras prior starting the update procedure!
Some updates only can be installed when all cameras are stopped.**

Please fill out this form to list the available updates.
