

Video Surveillance C-MOR3M+ Data Sheet

| | |
|----------------------------------|---|
| Box |  |
| Application | <p>Digital video surveillance for the use in networks or over internet for up to 3 network cameras C-MOR3M+ version with upgrade function for up to 15 cameras Please note that additional cameras interact with the memory capacity and processor performance</p> |
| Basic function | <ul style="list-style-type: none"> -Fanless and compact design -Energy efficient, appr. 28W power consumption -Plug&play installation -Permanent recording -Recording due to motion detection -Recording time up to 360 days -IP configuration either over web interface or front display of device -Optimized hardware for 3 cameras, additional cameras maybe activated through online licensing -Support of all IP cameras with JPEG/MJPEG standard -Time control of recordings configurable with time frame definition -Automatic FTP backup for archiving/data saving -Internet remote inquiry -Support of mobile devices like smart phones and cell phones with video player -User interface in English and German -Usage of alternate ip technics like WLAN and ethernet over powerline |
| Extended C-MOR-Functions | <ul style="list-style-type: none"> -E-mail or mobile alarm at camera failure, vandalism or error -E-mail or mobile alarm at motion detection for each camera separately configurable -Motion detection recordings forwarding in e-mails -Automatic FTP backup for archiving or data backup -Internet remote access without any additional software and without installation on the local Computer -Usage of free definable black white picture masks for motion detection areas -Integration of external switches for door alarm, motion detection, temperature monitoring etc. -Support of mobile devices like mobile phones, and handies with live pictures in pre-definable picture sizes |
| C-MOR- Security Functions | <ul style="list-style-type: none"> -User rights in 3 steps; administrator, common user and demo user rights -Encrypted internet access over SSL -SMTP authentication for save e-mail-delivery |
| Standards | IEEE 802.3 (10BaseT), IEEE 802.3u (100BaseTX), HTTP 1.1, HTTPS, FTP, MPEG1, MPEG4, JPEG, SMTP |
| Ports | 1 x Ethernet 100 Mbit RJ45, PS/2, 4x USB Ports, Parallel Port, S-Video, VGA Monitor Port (only for maintenance usage) |
| Buttons | On/off toggle switch |
| Processor | Intel Atom 330 1.6 GHz |
| Main Memory | 512 MB RAM |
| Hard Drive | 160 GB Hard Disk (2,5", SATA, 5400 RPM) |
| Weight | Appr. 2 kg |
| Power Supply | External 60W Power Supply |
| Dimensions (WxHxD) | 180 mm x 65 mm x 242 mm |
| Warranty | 2 years |
