

Video Surveillance C-MOR6P+ Data Sheet

Box	
Application	Digital video surveillance for the use in networks or over internet for up to 6 network cameras C-MOR6P+ version with upgrade function for up to 15 cameras Please note that additional cameras interact with the memory capacity and processor performance
Basic function	<ul style="list-style-type: none"> -Plug&play installation -Permanent recording -Automatic motion detection -Recording time up to 360 days -IP configuration either over web interface or front display of device -Optimized hardware for 6 cameras, additional cameras maybe activated through online licensing -Support of all IP cameras with JPEG/MJPEG standard -Time control of recordings configurable with time frame definition -Automatic FTP backup for archiving/data saving -Remote access -Support of mobile devices like smart phones and cell phones with video player -User interface in English and German -Usage of alternate ip technics like WLAN and ethernet over powerline
Advanced C-MOR-Functions	<ul style="list-style-type: none"> -E-mail or mobile alarm at camera failure, vandalism or error -E-mail or mobile alarm at motion detection for each camera configurable separately -Motion detection recordings forwarding in e-mails -Automatic FTP backup for archiving or data backup -Internet remote access without any additional software and without installation on the local Computer -Usage of free definable black white picture masks for motion detection areas -Integration of external switches for door alarm, motion detection, temperature monitoring etc. -Support of mobile devices like mobile phones, and handies with live pictures in pre-definable picture sizes
C-MOR- Security Functions	<ul style="list-style-type: none"> -User rights in 3 steps; administrator, common user and demo user rights -Encrypted internet access over SSL -SMTP authentication for save e-mail-delivery
Standards	IEEE 802.3 (10BaseT), IEEE 802.3u (100BaseTX), HTTP 1.1, HTTPS, FTP, MPEG1, MPEG4, JPEG, SMTP
Ports	2 x Ethernet 10/100 Mbit RJ45, VGA Monitor Port (only for maintenance usage),
Buttons/Display (optional)	Front 6x push button field incl. double spaced display with 16 characters each, on/off toggle switch, reset button
Certifications	CE, EN55022 Class A, EN55024, EN 60950
Processor	Intel® Pentium® Dual-Core E2160, 1.8 GHz
Main Memory	1024 MB
Hard Drive	500 GB SATA
Weight	appr. 6kg
Power Supply	internal
Dimensions (WxHxD)	12.2"x3,6"x15,7"
Warranty	2 years
