

C-MOR Inc.: exhibitor on Trade Fair for Building Equipment, Light Engineering, Switchgear and Industrial Controls

C-MOR Inc. showcases innovative solutions at the ELTEC 2009 fair in Nuremberg

Lake Forest, California, January 13th, 2009

From January 21st to 23rd, 2009 C-MOR Inc. shows the latest products and technical innovations as an exhibitor at the trade fair for electrical & electro technical engineering in Nuremberg.

At ELTEC the provider of the trend-setting, web-based video surveillance solution C-MOR will speak in detail on tried-and-tested products in the area of “security in building services engineering”, which is one of the main topics at the fair.

“We are convinced that we can provide you with your individual solution to close existing security gaps“, says CEO Michael Reuschling.

One of the highlights at C-MOR Inc.’s exhibition booth is the C-MOR video-supported alarm system including the Ethernet sensor meter Allnet ALL4000. The multi-purpose device can be equipped with door / gate / contact alarms and motion detectors that are integrated in C-MOR. With this device, over an external switch, a PTZ camera can be controlled and zoomed in on a desired object. The system also offers the optional function of sending SMS or email alarms.

At the booth interested visitors have the opportunity to test all functions of C-MOR at length and to ask specific questions.

Both founders, Michael Reuschling and Peter Steinhilber, will provide trade visitors with individual, personal and expert advice. “Visitors and clients will get all the time they need to have all their questions answered and to retrieve all information necessary“, explains Peter Steinhilber. “We will show you all advantages and possibilities that come with the use of our products. We are looking forward to welcoming you at our booth.”

C-MOR Inc. presents itself and product news of its brand C-MOR at ELTEC in hall 2, booth 111.

About C-MOR:

Since 2003, the video surveillance solution C-MOR, has been convincing users on the international market. Numerous features have been constantly developed to meet increasing demands of customers. Excellent performance, reliability and stability characterize the innovative solution. Features like remote access from all over the world, alarm functions, motion detection, hard drive storage management etc. are all standard.

About C-MOR Inc.:

Since the beginning in 1996 when Michael Reuschling and Peter Steinhilber founded the mother company za-internet in Germany, they have convinced customers as an Internet provider with custom-tailored and reliable service. Since 2003 the company has also been successfully offering customer-specific solutions in the field of video surveillance. In 2007 C-MOR Inc. in the US was founded. From the beginning, broad skills and expertise, trustworthiness, flexibility and pioneering spirit have characterized C-MOR Inc. as a very solid business partner and the continuously growing company will also in the future do everything to meet the demands of their clients.
